

JoyBar[®]

Scooter
Style Hand
Controls

Effortless Drop-In Connection • Robust MidLine Drive • Multiple Socket Locations
Easy Plug'N'Play Installation • Interfaces with Most Power Wheelchairs

A New Drive Control that Steers like a Scooter

The JoyBar provides separate controls for steering and speeds, so first-time users are more confident and secure. The combination of power wheelchair maneuverability and scooter style controls creates a more natural rider experience. In the attendant position, the JoyBar provides more stability and greater control without the need of upgraded electronics.

Intuitive Scooter Style Steering

3 Socket Positions • Gold Plated Connection Pins
