QUICKIE

Neon

The new Neon from Quickie re-defines Mini-Max principle. Minimum space requirement offering maximum performance.

Frame colour: bright silver
Sling: black

QUICKIE

The Mini-Max-Principle

1

2

4

The new Neon is available in various widths, with continuous or two-piece footplates through to the newly-developed footrests which can swing inwards and outwards, and an automatically folding footrest.

The new Neon is the perfect chair for all requirements and is totally convincing in every aspect. That's what we mean by the Mini-Max principle.

- 1 Seat height adjustment / short perforated plate adapter
- 2 Seat height adjustment / long perforated plate adapter
- 3 Internal cross-brace
- 4 Neon Swing Away: with Swing-In and Swing-Out Function

Optimal adjustability

A wide variety of adjustment possibilities and options available through a minimum of handles enables the Neon to be adapted to the most varied requirements. The positioning of the back can be carried out while you are sitting in the wheelchair. In this way, you can feel every change immediately, so the user can find the most comfortable seating position for himself, without having to keep getting in and out, in the shortest possible time.

- 1+2 Undoing the adjusting screw
- 3 Adjusting the backrest

Back adjustment available as an option

Small, smaller, Neon – a miracle of space

A clever frame

Automatically folding footrest

Beautifully slim

With its innovative cross-brace and the newly-designed, fold-down backrest, the Neon achieves folded dimensions unheard of up to now. With its "Dream dimensions" of (W x H x L) 25 cm x 49 cm x 78 cm, the new Neon is the smallest wheelchair in its class, and will fit in practically anywhere. Whether it's in the car or when travelling, at work or for leisure, the Neon is the ideal companion for the active person. Not only can the Neon make itself extremely small, it is also an absolute lightweight, with a weight of just 9.7 kg in its normal configuration.

The smallest fold-up!

Neon

Swing Away

Great looks, exceptional functionality

The new Neon is not only a trail-blazer in size and weight, but sets new standards in form and function. Its open, curved lines give the Neon an easy, elegant overall appearance. With Swing Away, the ability to swing the footrests inwards and outwards it offers maximum flexibility. The overall weight of only 10.5 kg means that the Neon Swing Away version is also extremely light.

QUICKIE

There is room for the Neon even in the smallest car.
