Vernacare
cleaner safer healthcare

Senset skin cleansing foam, for patient centred care.

Senset skin cleansing foam puts the patient at the centre of care, incorporating a more sensitive approach. The range is dermatologically tested and designed to reduce costs, and the risk of cross infection whilst offering patients comfort and dignity.

Benefits of Senset Foam

- Contains emollient/moisturisers to prevent drying which reduces the risk of cracking and soreness
- Includes patient label to write patient name and ward details on to help reduce the risk of cross infection
- Contains high levels of water repellent barrier to protect the skin from the acid effects of urine
- Uses a dual actuator nozzle to give the nurse better control when applying to a patient
- Comes in a handy 150ml (short stay) and 400ml (long stay) size
- Contains a deodorant to help make the nurses/patient experience more pleasant
- Gently loosens and lifts soiling, making cleaning quicker for the nurse and more comfortable for the patient
- Clinically proven to help maintain the integrity of healthy skin for incontinent patients
- Reduces the risk of carrying infected soap and water around the wards

3-in-1 Cleansing Wash

Benefits of 3-in-1 Cleansing Wash

- Gentle shower gel, hair shampoo and foam bath all in one
- Perfect for cleaning and protecting delicate skin
- Ph balanced to protect healthy skin and care for sore sensitive skin

Senset Skin Cleansing Foam	150ml	900FM150
Senset 3 in 1 Wash	500ml	900CW500

Senset patient wipes, save time and money.

Senset macerator friendly wipes give you unparalleled soft, gentle efficacy and save valuable time and money by avoiding macerator blockages. They save costs associated with the removal of clinical waste and also nurse time as wipes can be simply left in the bedpan after use greatly reducing infection risk.

Senset Dry Wipes
