TIFIT. PERSONAL ERGONOMICS.

The difference between a TiFit® chair and all other chairs is that a TiFit chair is a wheeled prosthetic: Every frame is made to measure. A TiFit chair brings unparalleled performance and function. You will feel the difference in everything you do. TiFit...not standard.

CUSTOM CONFIGURATION.

Custom Configuration allows you to add options and components to your chair to meet your needs and to optimize your riding experience. This includes choices of wheels, handrims, tires, wheel locks, color, tattoos, and more. TiLite offers more options than any other manufacturer!
